# NEW YORKERS FOR CLEAN POWER

is a unique collaborative campaign that engages the public, local governments, nonprofits, and businesses to accelerate a range of
renewable energy, energy efficiency and clean transportation solutions.

Solar is a win-win-win!

- For the environment
- For the public health
- For the economy

Public Health Costs... Solar is Safer!

A "Pyramid of Effects" from Air Pollution

Increased Resilience

4,000 solar industry jobs in the Mid-Hudson Valley!

Ulster County's Utility Scale Solar Project

The 1.9 MW array is anticipated to produce 3 million kwh of energy per year - avoiding the greenhouse gas emissions equivalent to burning 2.4 million pounds of coal or over 5,000 barrels of oil.

SOLARIZE makes solar affordable

How can we accelerate the adoption of solar?

Build Awareness

Solarize Hudson Valley
2015 - 2017

- **Ulster County:** 156 home solar systems (approx. 1.3 MW)

- **Dutchess County:** 107 home solar systems (approx. 1 MW)

- **Orange County:** 131 home solar systems (approx. 1.1 MW)

- **TOTAL:** 394 homes (approx. 3.4 MW)

SOLARIZE
OUR CONGREGATION

- New program, piloted with HRP Green, the volunteer environmental partnership of the Hudson River Presbytery (79 congregations spanning 8 counties).

- For churches, congregants and friends – broadly defined! All benefits of Solarize: vetted installers, group discounts, community outreach.

- Offered by Solarize Westchester team (Abundant Efficiency in partnership with Sustainable Westchester) with technical support from NYSERDA.

www.SolarizeOurCongregation.org

2018 Ulster County Green Business Challenge

100 Ulster County businesses or non-profit organizations will:

- **complete an energy retrofit**
- **install solar or other renewable energy**
- **install an electric vehicle charging station**
- **purchase an electric vehicle**
- **purchase 100% renewable electricity from a LOCAL Project.**
